Appearance**User information ex art. 26 D. 49/2014**

The symbol labelled on the appliance (Annex IX D. 49/2014) indicates that the rubbish is subject to “separate collection” and it has been placed on the Italian market after the December 31, 2010.

The user must therefore assign or (have collected) the rubbish to a treatment facility according to indications by the local administration, or hand it over to the reseller in exchange for an equivalent new product. The separate collection of the rubbish and the subsequent treatment, recycling and disposal operations encourage the production of appliances made with recycled materials and reduce negative effects on health and the environment caused by improper treatment of rubbish.

In the case of very small WEEE (no external dimension more than 25 cm), the user is eligible to get free of charge assignation to retail shops with sales areas relating to EEE of at least 400 m².
